

JAPANESE
WHISKIES

A FEW WORDS FROM THE TASTING PANEL

THIS WHISKY MENU FEATURES, FOR EACH EXPRESSION,
A FEW WORDS TO CONJURE IN YOUR MIND THAT
WHICH AWAITS YOUR PALATE.

IN ORDER TO DO THIS, EACH WHISKY HAD TO BE TASTED BY OUR PANEL.

(Colin Dunn, Tristan Stephenson, Xavier Landais and Jérôme AllagUILLETTE)

JAPANESE WHISKY IS THE MISSING LINK BETWEEN BOURBON AND SCOTCH,
MAKING SUCH A HUGE CONTRIBUTION TO THE WHISKY WORLD, WITH NEW
AROMAS, TEXTURES AND FLAVOURS TO DELIGHT ITS MANY FANS, NEW AND OLD.

SEXY FISH HAS THE SAME CREDENTIALS, MAKING A HUGE IMPACT WITH THEIR
NEW WHISKY MENU, METICULOUSLY PUT TOGETHER BY XAVIER LANDAIS,
JÉRÔME ALLAGUILLETTE, TRISTAN STEPHENSON AND MYSELF, WHO, OVER
A 12 MONTH PERIOD, NOSED AND TASTED OVER 400 EXPRESSIONS TO GIVE THE
SEXY FISH CUSTOMERS TASTING NOTES ON A GARGANTUAN SCALE,
NEVER ATTEMPTED BEFORE AT THIS LEVEL.

TRADITION AND INNOVATION. THESE TWO WORDS SUMMARISE BOTH
JAPANESE WHISKY AND SEXY FISH, PAYING ATTENTION TO DETAIL AND
SERVICE OF THE HIGHEST QUALITY FOR THEIR CUSTOMERS.

COLIN DUNN

Whisky Ambassador/Cornishman

THE REPUTATION THAT JAPANESE WHISKY HAS ACHIEVED IS DOWN
TO THE PROFOUND EXPRESSION OF PLACE THAT EACH BOTTLE
COMMUNICATES. THESE LIQUIDS TELL THE STORY OF OAK AND BARLEY,
BUT ALSO OF THE PEOPLE WHO MAKE THEM, WHO HAVE IMBUED THEIR
SPIRITS WITH THE MANY VARIED FLAVOURS OF THIS UNIQUE NATION.

IN TASTING THEM, WE HAVE TAKEN BOTH A HISTORICAL AND
GEOGRAPHICAL JOURNEY THROUGH THE ISLANDS, ENCOUNTERING
BOTH THE FAMILIAR AND THE UNEXPECTED. THERE'S SOMETHING
FOR EVERYONE HERE BUT BE SELFISH AND DO WHAT WE DID
- TRY THEM ALL!

YOICHI DISTILLERY

IN 1934, AFTER MASATAKA TAKETSURU'S 10 YEAR CONTRACT WITH SUNTORY WAS UP, HE REALISED HIS DREAM AND SETUP HIS OWN WHISKY DISTILLERY ON HOKKAIDO.

SURROUNDED BY MOUNTAINS AND THE SEA, WITH A CLIMATE NOT UNLIKE THE COASTAL WHISKY-PRODUCING COMMUNITIES IN SCOTLAND, HE THOUGHT THIS SITE TO BE IDEAL FOR HIS DISTILLERY.

THE FIRST POT STILL WAS INSTALLED IN 1935 AND WAS MADE SPECIFICALLY TO TAKETSURU'S ORDERS. YOICHI DISTILLERY'S SIGNATURE IS RICH, HIGHLAND-LIKE, PEATY, SLIGHTLY SULPHURY AND VERY POTENT, ALMOST MASCULINE MALTS.

BUILT IN 1973, 50 YEARS AFTER SUNTORY'S FIRST DISTILLERY, HAKUSHU IS THE WORLD'S LARGEST MALT DISTILLERY IN TERMS OF IT'S PRODUCTION. IT IS LOCATED IN HAKUSHU FOREST, IN THE CITY OF HOKUTO. HANYU

HANYU DISTILLERY WAS FOUNDED IN 1941 BY AKUTO FAMILY, INITIALLY AS A SAKE BREWERY AND SHOCHU DISTILLERY, 31 MILES FROM CHICHIBU. IN 1980, SERIOUS ATTEMPTS BEGUN TO PRODUCE A SCOTCH-STYLE MALT WHISKY.

THIS LASTED UNTIL 2000 WHEN THE WHISKY BUSINESS FINISHED DUE TO WEAKENED PROFITABILITY. THE DISTILLERY EQUIPMENT WAS DISMANTLED AND SOLD TO ICHIRO AKUTO (CHICHIBU) IN 2004.

THE HOUSE STYLE WAS SIMILAR TO SPEYSIDE, WITH DISTINCT SHERRY MARKERS AND A LIGHT STROKE OF BURNING PEAT.

KAWASAKI

KAWASAKI WAS SET UP IN 1955 ON THE OUTSKIRTS OF TOKYO. ONE OF THE SMALLEST DISTILLERIES IN JAPAN, IT IS NOT WELL KNOWN AS ITS SISTER DISTILLERY, KARUIZAWA, BUT HAD A REPUTATION FOR MAKING EXCELLENT GRAIN WHISKY. BY THE LATE 1990S, THE COMPANY'S FORTUNES BEGAN TO SHIFT AND IN 2006 MERCIAN BECAME PART OF KIRIN HOLDINGS, WHICH WAS NOT INTERESTED IN WHISKY MAKING.

AS A CONSEQUENCE, BOTH THE KAWASAKI AND KARUIZAWA DISTILLERIES WERE CLOSED DOWN AND THE REMAINING STOCK LOCKED UP IN A BASEMENT. THIS MIGHT HAVE BEEN THE END OF THE STORY HAD IT NOT BEEN FOR ICHIRO AKUTO, THE FOUNDER OF VENTURE WHISKY AND OWNER OF CHICHIBU DISTILLERY. ICHIRO BOUGHT UP MUCH OF WHAT WAS REMAINING OF THE KAWASAKI AND KARUIZAWA STOCKS AND MARKETED IT UNDER THE LABEL 'ICHIRO'S CHOICE.

KAGOSHIMA

ACTIVE FROM 1953, THE KAGOSHIMA DISTILLERY WAS LOCATED ON THE ISLAND OF KYUSHI. SURROUNDED BY VOLCANOES, IT WAS OFTEN CALLED THE 'NAPLES OF THE EAST'. MALT WHISKY MADE HERE WAS CALLED SATSUMA WHISKY. KAGOSHIMA STOPPED PRODUCTION IN 1985.

WHISKY

The name is an English corruption of the ancient name for spirits “water of life” – which in Scottish and Irish Gaelic is “uisge breatha” or “usquebaugh” and sounded to the English ear like “uishg” and hence “whisky”.

AMERICAN OAK

Also known as White Oak or by the binomen *Quercus Alba*, American Oak is widely used in whisky cooperage. American Oak has a high vanillin content.

ANGEL'S SHARE (ALSO 'PART DES ANGES')

As the whisky ages, a small percentage of alcohol evaporates, thus lowering the spirits abv.

BARREL

A large wooden vessel used to store maturing spirit. In the whisky world, these must be made from Oak. They are built by coopers and are of varying sizes. A standard whisky barrel has a capacity of approximately 40 gallons (180 litres). The larger barrel, the less wood contact with the spirit. So a smaller barrel, in theory, can mature whisky faster.

BLENDED WHISKY

Malt whisky combined with grain whisky. By law, there must be a minimum of 40% malt whisky.

CHILL-FILTRATION

A method of filtering whisky employed to remove residue and a cloudiness which appears when the spirit reaches lower temperatures.

FEINTS (AKA HEADS, TAILS OR AFTERSHOTS)

The unusable end of distillation run, unpotable even to the most hardened drinker.

GRAIN WHISKY

Indicates by contrast that the raw material is unmalted barley, wheat or maize produced as a continuous process in a column still.

MALT WHISKY

This indicates that the raw material is barley malt, by itself fermented with yeast and distilled in a pot still. This produced a far superior whisky to the common grain whisky found in blends.

MATURATION

The ageing process of whisky. It can only be aged within an oak cask, it is widely believed whisky does not age in the bottle.

OAK

The variety of wood used as a material for building barrels, as well as a number of other items used during the production of whisky. Oak is from the genus *Quercus* and there are roughly 400 species.

PEATED MALT

Malted barley which retains a strong peaty-character after it is kilned over peat fires.

PEAT

A dark, partially decayed organic matter formed in the wetlands. It is formed when ful decay is arrested by acidic conditions, and when oxygen is not present. Over thousands of years of decomposition it becomes a flammable substance, traditionally used to fire malted barley kilns. Its flavour is very intense and is often associated with tar, bitumen and medicinal notes and due to the high incidence in the locality.

POT STILL

A traditional still used to distill single malt whisky, among other varieties. Pot Stills are almost exclusively made of copper and are based upon the alembic still, created around the eighth century AD by the Arabian alchemist Jabir ibn Hayyan

PURE MALT

A term that usually refers to Blended Malt Whisky. Nikka released a 'Pure Malt' range.

UNPEATED MALT

Malted barley that has been kilned over fires not fuelled by peat, thus with very little or no phenolic content.

VATTING

A now disused term for blending of malt whisky with that from other distilleries without the addition of grain whisky, or vice versa.

WASH

Fermented Wort, a sort of beer of about 7 to 8% ABV.

YEAST (AKA BARM)

A micro-organism from the Fungi kingdom. Yeast is used in the fermentation process for it feeds on sugar and produces carbon dioxide and ethyl alcohol.

PUNCHEON

500 litres barrel made from American or Spanish Oak, used mainly to age rum or sherry and finish whisky. The large size guarantees a slow ageing process.

HOGSHEAD

A 250 litres barrel which is made from 5 dismantled bourbon barrels, with new American Oak tops.

SHERRY BUTT

500 litres long shaped barrel made from European Oak used to age sherry.

PORT PIPE

650 litres cask used to age Port wine.

MIZUNARA

Japanese Oak, rare and appreciated for its spiciness and richness.

QUARTER CASK

50 litres American Oak barrel, its short size accelerates the ageing process.
